

Pure Style
Pure Convenience
Pure Peace of Mind...

The **Waterwise Model 9000™** features steam distillation with carbon filtration for maximum purity...effectively removing up to 99% of impurities. You will discover the natural flavor of foods and the improved taste and appearance of beverages made with great tasting 100% homemade distilled water!

WATERWISE®
Quality Since 1977
Purification Systems

The Model 9000 water purifier/distiller effectively removes substances such as arsenic, aluminum, bacteria, chloride, chlorine, chloroform, copper, fluoride, lead, MTBE, mercury, nitrates, sodium, sulfate, trihalomethane (THM) and viruses.

1. Ordinary tap water is heated to 212° F (100° C) killing microbes such as bacteria, cysts and viruses that may be present.
2. Steam rises leaving behind dead microbes, dissolved solids, salts, heavy metals and other substances.
3. Low boiling light gases are discharged through the gaseous vent.
4. Steam is condensed in the stainless steel coil.
5. Purified water then percolates through the coconut shell carbon filter, enhancing quality by adsorption of volatile organic compounds.
6. The 100% steam distilled water is collected in the 1 gallon polycarbonate collector/dispenser bottle (included).

Wise Features

- Steam Distillation.....
- Contemporary Design.....
- No Assembly or Installation.....
- Automatic Shutoff After 1 Gallon Cycle.....
- Up to 5 Gallons Per Day.....
- 30 Minute Fan-Delayed Start.....
- Removable Boiler.....
- Stainless Steel Condenser.....
- Vent System.....
- Carbon Posttreatment.....
- Polycarbonate Bottle.....
- Lightweight & Portable.....
- WQA Tested & Validated.....

Pure Benefits

- Purity Guaranteed** 100% distilled
- Pure Style** complements your decor
- Pure Convenience** no water hookups
- Pure Safety** will not boil dry
- Consistently Fresh** for drinking and cooking
- Improves Efficiency** enhances operation
- Designed** for easy filling and cleaning
- Pure Peace of Mind** non-leaching
- Precision Engineering** reduces volatile organics
- Maximum Purity** enhanced by organic carbon
- Pure Quality** collector/dispenser
- Pure Simplicity** for easy traveling and storage
- Pure Integrity** quality ensured

Model 9000 Specifications

- WQA Validated – Awarded the S-400 Gold Seal
The Water Quality Association (WQA) prestigious Gold Seal is a mark of product quality awarded only to water treatment equipment that meets or exceeds industry standards for contaminant reduction, performance, structural integrity and materials safety.
- Distillate Capacity 1 Gallon (3.8L) in 4.5 Hours
 Up to 5 Gallons (19L) in 24 Hours
- Space Saving Dimensions
15" (38 cm) Height 16" (41 cm) Depth 9.5" (24 cm) Width
- Net Weight 10 lbs (4.5 kgs)
- 120VAC/60Hz 750W • International 230VAC/50Hz 750W
- 1 Year Limited Warranty
- UL Listed
- CSA Certified
- CE Certified
- USA & Foreign Patents
- Made in USA

The removable boiler has a concealed heating element that cannot become coated with scale and mineral deposits.

Operational maintenance and replacement requirements are essential for product to perform as advertised.
